

Amir Khan

Senior Full Stack Developer (MERN Stack)

📍 Riyadh, 09848 📞 +966 570920737 ✉️ amiraup17@gmail.com

PROFESSIONAL SUMMARY

Experienced MERN Stack Developer with 5+ years of expertise in building responsive, user-friendly web applications. Skilled in developing full-stack solutions using MongoDB, ExpressJs, ReactJs, and NodeJs, with a strong focus on UI/UX best practices. Proven ability to deliver optimised, scalable, and maintainable code. In addition to development, I bring hands-on experience in Quality Assurance, enabling me to ensure robust performance and high-quality deliverables through both manual and automated testing. Passionate about delivering seamless digital experiences by combining thoughtful design, clean code, and thorough testing. Experienced working with teams to produce impactful, leading-edge websites that engage customers and deliver business results. Well-versed in design standards and user preferences.

WORK HISTORY

FULL STACK WEB DEVELOPER

03/2022 to 10/2025

Technology Rivers | Islamabad

- Designed and implemented intuitive, responsive user interfaces using **React.js** to enhance user experience across web and mobile platforms.
- Collaborated with cross-functional teams to troubleshoot issues, apply best development practices, and deliver scalable full-stack solutions using the **MERN stack** (MongoDB, Express.js, React.js, Node.js).
- Planned and developed UI components and admin dashboards that streamlined application management and improved usability for end-users.
- Developed and maintained software for both **desktop and mobile platforms**, ensuring cross-device compatibility and performance.
- Maintained deep expertise in **React state management** (using Context API, Redux, etc.) and optimized rendering performance across complex component trees.
- Refactored and modernized legacy codebase to align with current development standards, improving maintainability and overall application performance.
- Built **reusable components** and utility functions to accelerate development cycles and maintain consistency throughout the codebase.
- Conducted **manual and automated QA testing**, including functional, regression, and performance tests to ensure application reliability.
- Integrated **testing frameworks** (e.g., Jest) to validate frontend and backend logic, improving product quality and reducing production bugs.
- Collaborated closely with designers to uphold **design accuracy** and **test coverage**, contributing to a seamless user experience and high

product stability.

FRONT END DEVELOPER

02/2020 to 11/2022

AppLab | Doha, Qatar

- Provided Front End Website Development Using, React js, Material UI, Tailwind Css and Others CSS Frameworks
- Optimized site content for mobile devices using responsive design techniques.
- Designed and updated layouts to meet usability and performance requirements.

EDUCATION

Bachelor of Science | Computer Science

01/2020

The University of Agriculture Peshawar, Peshawar

SKILLS

HTML & CSS

Bootstrap, MUI, & Tailwind

Ant Design & sass

JavaScript, TypeScript, es6

React js

Next js

Git for version control

Node JS

React Hooks, Context API, Redux / Zustand

Responsive design & cross-browser compatibility

Axios / Fetch for API calls

Restful API creation

Authentication & Authorization (JWT,)

File uploads (Multer)

Error handling & validation (Joi, express-validator)

Performance optimization & caching (Redis, compression)

MongoDB Atlas, MySQL & PostgreSQL

Jest, Playwright & Postman

Unit Testing

Debugging

Agile

CI/CD

TOOLS

- Visual Studio Code (VS Code)
- GitHub/GitLab
- npm
- MongoDB Compass
- Postman
- React Developer Tools

SOFT SKILL

- Jira
- Figma
- Docker

- Communication
- Teamwork
- Mentor
- Problem solving
